

I would like, on behalf of Profkurort Health and Spa Resort AO and on my own behalf, welcome the exhibitors, organizers and visitors to the MedTravelExpo 2017. Medical Clinics. Health and Spa Resorts international exhibition, which runs as part of the Russian Health Care Week.

Resorts have been playing an important role in the Russian health care for several centuries. Government regulation of resorts started during the reign of Peter the Great. Since that time both authorities and general public have never lost interest in resorts and spas.

This trade show is a unique platform to network with fellow industry professionals and to receive comprehensive information about the latest trends and technologies for treatment, rehabilitation, balneology, resort business and tourism.

Let me wish all participants fruitful cooperation, interesting networking and every success!

Aleksandr Ivanov
Director General
Profkurort Health and Spa Resort AO
