

Welcome Message to the participants of the Russian Health Care Week 2021

Dear colleagues,
On behalf of the Union of Associations and Enterprises of the Pharmaceutical and Medical Industry, I would like to welcome the exhibitors, visitors and organisers of Russian Health Care Week 2021!

The Zdravookhraneniye exhibition, which first took place in 1974 and launched the Week, has for decades been the largest and most authoritative congress and exhibition event in the field of health care.

The inclusion of Russian Health Care Week in the plan of the main events of the Year of Science and Technology in the Russian Federation confirms the high status of the Week, proves its deserved authority, as well as its effectiveness and demand in the professional community.

This demonstrates the well-deserved authority and recognition of Russian Health Care Week, as well as its effectiveness and relevance in the professional community.

It is remarkable that, despite the difficult epidemiological situation, the Week will take place this year as well. The organisers have managed to find an optimal format for it. Associations and companies in our Union traditionally take part in the exhibitions and supporting events of Russian Health Care Week.

This year, the Russian Congress of Pharmaceutical and Healthcare Workers will again be held as part of the Week.

This is logical, as the Week brings together all interested parties – manufacturers of equipment and medicines, goods and services, heads of healthcare authorities, and representatives of supervisory bodies.

This is an excellent opportunity for professionals to discuss their legislative priorities and to obtain information from medical executives, experts and practitioners at various levels.

Every year, the effective dialogue between professionals from different fields that takes place at the Week helps to coordinate steps in the important and noble work of protecting the health of citizens.

I wish all exhibitors, visitors and organisers fruitful work, health and wellbeing!

Yury Kalinin
President
the Union of Associations
and Enterprises
of the Pharmaceutical
and Medical Industry
