

## Welcome Message to the participants of the Russian Health Care Week 2021

**D**ear colleagues,

On behalf of the State Duma Committee on Science and Higher Education and the Organising Committee of the NTI Expo project, I would like to welcome you at Russian Health Care Week 2021 at EXPOCENTRE Fairgrounds!

The Week is one of the key events of the Year of Science and Technologies in the Russian Federation, as well as an important stage in implementation of the NTI Expo (Research-Technology-Innovations Expo) project designed to promote the introduction of scientific achievements in industrial production, social sphere and public health.

The exhibitions will showcase stands presenting high-tech medical equipment developed at the research centres of the Russian Ministry of Health Care and the Russian Academy of Sciences and produced by Russian companies. In view of the current epidemiological situation a separate block of events will be devoted to the functioning of the health care system in pandemic conditions. One of the key events of the conference programme will be the Strategic Session on Modern Medicine: Post-Pandemic Technologies.

The strategy session will discuss trends in the development of modern medicine in the context of the pandemic. Experience shows that the sustainable operation of health authorities and resilience to challenges and crises is only possible on the basis of new knowledge and digital technology. The total transition to big data analysis and digitalisation is helping doctors to develop and methodologically describe the most effective diagnostic and treatment schemes, prevention and rehabilitation, and to implement optimal patient routing principles.

The session is organised by the State Duma Committee on Science and Higher Education, the Research Institute for Health Care and Medical Management of the Moscow Health Care Department, and EXPOCENTRE AO.

Heads of the Russian Ministry of Health Care, Russian Ministry of Science and Higher Education, Russian Ministry of Industry and Trade, leading research centres of the Russian Ministry of Health Care and Russian Academy of Sciences, health authorities of various levels, scientists, specialists, practicing physicians and journalists are invited to participate in the session.

See you at Russian Health Care Week 2021!

**Vladimir Kononov**  
Deputy Chairman  
of the State Duma Committee  
on Science and Higher Education  
Chairman of the Organising Committee  
of NTI Expo
