

Welcome Message to the participants of the Russian Health Care Week 2021

I am happy to welcome the exhibitors and visitors to Russian Health Care Week 2021!

The Week traditionally includes an extensive conference programme, the Zdravookhraneniye, Healthy Lifestyle, MedTravelExpo. Medical Clinics. Health and Spa Resorts International Exhibitions and the PharmMedProm Forum. About 700 companies from 20 countries participate in Russian Health Care Week this year.

It is particularly honourable and significant for EXPOCENTRE AO that Russian Health Care Week 2021 has been included in the plan of the main events for the Year of Science and Technology in the Russian Federation.

The conference programme of Russian Health Care Week 2021 will bring together more than 100 major events.

One of the central events of the programme will be the strategic session "Modern Medicine: Post-Pandemic Technologies" organised by the State Duma Committee on Science and Higher Education. The strategic session will discuss the functioning of the health care system under pandemic conditions and trends in the development of modern medicine.

A landmark event, also linked to the Year of Science and Technology, will be the interdisciplinary MEDICINE YOUNG Forum. Young doctors, health care organisers and researchers will be presenting their speeches. They will talk about promising developments and innovative solutions, including digital ones, shaping a new quality of medical services, as well as the scientific and production environment for developing breakthrough technologies in the prevention and treatment of various diseases.

EXPOCENTRE AO has always been a launching pad for talented young people. Medical students are regular visitors to Russian Health Care Week. The future specialists get acquainted here with the new medical equipment with which they will soon have to work.

Russian Health Care Week has long been a large-scale and multifaceted event, reflecting all the main aspects of modern medicine. I am positive that it will continue to contribute to the development of effective responses to the challenges currently facing the medical community.

I wish the exhibitors and visitors to Russian Health Care Week 2021 fruitful work, excellent results, success and good health!

Alexey Vyalkin
Director General
EXPOCENTRE AO
