sq. m of
exhibition space

**EXCERPT FROM THE ADDRESS
OF RUSSIAN MINISTER OF HEALTH MIKHAIL MURASHKO
AT THE OFFICIAL OPENING CEREMONY**

"Today, as we open Russian Healthcare Week, we are in the process of global modernisation of the system.... In fact, we have been opening at least 7-8 renovated or newly built healthcare facilities every day since 2021. In the near future, by the end of the year, we plan to launch large outpatient clinics, hospitals, oncology centres, and specialised laboratories both in new regions of Russia and in those that needed modernisation..."

Russian Healthcare Week is the largest series of congresses and trade shows dedicated to medicine and healthcare, covering almost the entire industry, including equipment manufacturing, research, and practical medicine. The Week brings together three key trade shows and a rich and diverse conference programme. In order to strengthen the role of research and technology in solving the most important tasks of the development of society and the country, Russian Healthcare Week has been taking place within the Decade of Science and Technology in Russia since 2022.

The Week is traditionally included in the list of events supported by the Russian Ministry of Health and in the consolidated list of congresses and exhibitions held in Russia and abroad for participation of the Russian Ministry of Industry and Trade.
